INTRODUCTION

Did you know...

Many bursaries and scholarships go unawarded! There is a myth that awards are for the “smart” students, but there is a wide range of opportunities for everyone! Some awards are based on grades, others on the field of study, and/or your volunteer experience.

Six Nations Polytechnic created this guide to assist you in finding various bursaries, scholarships, and awards listing criteria, documents needed, and deadline dates. Efforts are made to provide up-to-date information; in the event of an error, please let us know by emailing finaid@snpolytechnic.com.

The following award listing is only a few of the awards; there are many other awards available. If you find an award not listed, let us know and we will include it in subsequent guides. You can email finaid@snpolytechnic.com.

WHAT IS A SCHOLARSHIP?

It's important to know the difference between a scholarship and a bursary. Scholarships Canada (scholarshipscanada.com) defines scholarship and bursary as:

Traditionally, scholarships are based on academic merit. For example, entrance scholarships are based on your grades in high school. Modern usage of the word, though, is far less specialized. Many providers of non-academic awards use the term to describe any financial prize for education.

Application procedures vary by scholarship but often include a request for your grades so the administrator can assess your academic credentials.

WHAT IS A BURSARY?

Bursaries are based on financial need. They may also have academic requirements, but their main purpose is to support students without the means to afford school otherwise. When applying, you may need to show why you need assistance and where your need is greatest.

***SCHOLARSHIPS & BURSARIES DO NOT NEED TO BE PAID BACK!**

BE PREPARED!
